Authorization for this examiner's amendment was given in a telephone interview with Pranay Pattani on 9/20/10.

The application has been amended as follows:

IN THE CLAIMS:

In claim 2, line 20, at the end, after the phrase "in said opening holes", insert "by using the conductor film as a stopper".

2. The following is an examiner's statement of reasons for allowance: The prior art fails to teach a process including the step of *growing the metal plating layers in the opening holes so as to contact the metal plating layers with the conductor film located on an upper surface of the insulating member, wherein the using the conductor film as a stopper and the growing of the metal plating layers is performed without electroless plating being carried out as the context of claims 1 and 2.*
